Također tu istu vještinu obradila sam u programskom alatu Gliffy. Pomoću njega prikazala sam na koje načine ljudi mogu biti pozorni, ne mogu biti i kada pokazuju manje odnosno veće naznake nepozornosti. To je prikazano na sljedećem dijagramu:

Što je bitno za menadžersku komunikaciju - moje viđenje

Za menadžersku komunikaciju po meni je veoma važno održavanje komunikacije u organizaciji, ali i izvan nje. Svi znamo da je menadžer centralna figura svake mreže formalne komunikacije. On šalje radne naloge i upute, daje obrazloženja, povratnu informaciju o kvaliteti obavljenog posla, te strateške ciljeve organizacije. Kvalitetna komunikacija je presudna za uspjeh organizacije kao i pojedinca. Menadžer mora biti svima razumljiv, i ostale sudionike u procesu komunikacije mora neprestano ohrabrivati da potvrđuju razumijevanje.

Conclusion

- ◆ Before using Web 2.0 tools in academic education they should be tested on small groups of students.
- ◆ For collaborative and peer-to-peer learning it is recommended to organize student work with the use of wiki, blog, social network (Ning, SocialGO), e-portfolio system (Mahara) or LMS.
